Hello Mr. Gatien,

I am retired after 25 years as a Handy Dart driver for people with disabilities. A job I truly enjoyed. Putting a smile on my passengers face was very gratifying. Listening to Mozart, Brahms etc. brought a lot of joy and happiness into my passengers lives if only just for that day.

The nine questions you have asked me to respond to are very good questions and I cannot answer them as I would only be giving my opinion and would not be very

representative of my constituents as a whole.

I make no promises as I am only one independent, but what I can promise you is that your voices, concerns and those of my fellow constituents will be heard loud and clear and presented in the BC Legislature.

I am only answerable to my constituents. I don't have to toe any party line. Whatever the consensus issues within the riding are, they will be heard and voiced such as what you've outlined below.

I also promise to hear individual concerns and find a way to solve their particular problems.

I am also allowed to introduce private members bills and get a chance to speak during question period. I am not beholdng to anybody, but only to my constituents.

I intend to hold a town hall meeting every 4 months by Zoom or at a community center to discuss any concerns that may arise in the constituency be it education, health care, crime etc.

I am a passionate man and if you and the Conseiller scolaire du Grand Vancouver / Metro Vancouver School Trustee put your trust in me, I promise not to let you down and your concerns will heard.

I invite you to two Zoom meetings taking place on Tuesday Oct 20th and Thursday Oct 22 if you are interested in participating and hearing about concerns being raised from my constituents.

Please fill out the form on my website salvatorevetro.ca Then it will be up to the voters to decide their next MLA for Vancouver Kensington.

Due to my brothers passing last week in Toronto I will be available only by email from Thursday to Sunday and will resume campaigning on Monday Oct 19.

Thank you for taking the time to email me.
